Career Assignment and Rubric

Let’s get it started!! You get to research a manufacturing career and teach your peers all about it. You will be given computer time to research your occupation/vocation and a sheet to use to collect information the first two days of the assignment. You will prepare a speech about your vocation and a presentation board highlighting the skills (at least 5) needed to work at your job. You will be required to complete a rough draft in pencil which will be turned in to me by the end of day 3 of the lesson. You will have the remaining two days to work on your board and type your final copy on the computer. You will be required to “dress the part” the day of your presentation. Please be sure to begin looking for clothing, hats, and accessories to wear as soon as your career choice is chosen. You can use material around the house or borrowed material. This assignment is not supposed to cost money so please make items you can’t find. Have fun and be creative!!

Career Path ________________________   Teacher approval ____________

1. Research paper - includes the following information – what you will do on the job, the skills you would need to do a good job, the steps you will have to take to get to your career goal (a trade school, college, boot camp, etc.), facts about your career, and your opinion on this career   _____/30 points

2. References - 2 sources (not search engines)   _____/10 points

3. Create a poster board – it should display the name of your vocation, the path to get there (college, trade school, etc.), and at least 5 skills you will need in the workplace – be creative and neat.   _____/20 points

4. You have dressed as the person in your career.   _____/15 points

5. Your writing meets 5th grade expectations in, conventions, ideas, organization, voice, and sentence fluency   _____/15 points

6. You looked at the class and spoke clearly during your presentation.   _____/100 points
