Case Planning and Service Delivery Field Activity
Collaborative Assessment, Planning, and Support: Initial Case Plan

OBSERVATION
Identify a case for which a team meeting to discuss case planning and service delivery is needed or scheduled. If appropriate, the social worker will obtain permission from the family for the trainee to observe the meeting. (Note: This option is intended ONLY for trainees without access to a case/caseload for which a team meeting is needed or would be part of the day-to-day case planning and service delivery practices.)

**Description of Activity:**

The social worker will participate in or observe a case planning meeting with a family to develop the initial case plan.

This activity is designed for initial case plan development. Examples of team-based case planning opportunities that can be utilized for this field activity include (but are not limited to): safety planning meetings, mappings, TILP/TILPC, CFTs, or other case planning types of meetings. The process of case planning does not happen during one meeting, rather, it is a series of activities that engage the child, youth, parent, family, tribe, and any other member of the safety network in identifying a safety goal. The family’s strengths and needs inform what actions are needed to provide safety and identify which services will help reduce risk and provide for well-being of the child(ren). With the understanding that there are many activities that are part of the case planning process, this field activity will focus on the last step – bringing the safety network together to finalize the case plan. Some of the case planning activities that may have occurred prior to the case planning meeting with the safety network include, but are not limited to:

- Completing the Family Strengths and Needs Tool
- Working with the family and tribe to identify safety network members
- Meeting with individual members of the safety network to gather their input regarding the family’s strengths and what is needed to provide safety for the child
• Working with the family and other members of the safety network to determine the safety and permanency goals for the child
• Exploring culturally responsive services and community-based supports
• Exploring with the family and other members of the safety network the specific actions and strategies to meet the family’s unique needs that provide safety and support the well-being of the family.

**Before the practice opportunity**

**Field Advisor Responsibility:**

- Work with the trainee to identify a case for which a team meeting to discuss an initial case plan is needed or scheduled. The field advisor may need to contact other unit supervisors or social workers to identify a case.
- Once a case has been identified for this activity, arrange a brief meeting with the assigned social worker to review the purpose of the trainee’s observation.
- Work with the assigned social worker to obtain permission from the family for the trainee to observe the meeting.
- Once the family has given permission for trainee to observe the meeting, work with the assigned social worker and trainee to set up a brief meeting to discuss important background information. The field advisor will help guide the discussion with both the trainee and assigned social worker present. Some information to discuss includes:
  - Purpose of the team meeting
  - What role will the social worker be playing in the meeting (facilitator or participant)?
  - Discuss with the social worker who the family has identified as their circle of support and/or safety network. Who is anticipated to participate in the team meeting?
  - Discuss with the social worker how the family’s culture and trauma history may have an impact on the meeting. How has the social worker explored this with the family?
  - How have participants been prepared for the meeting? Encourage the assigned social worker to describe their process for preparing families for team meetings.
  - Discuss documents, materials, or other information that may be helpful for the trainee to review prior to the meeting to help better understand the family’s history and current circumstances. This should include any safety and risk assessment tools and county policies and procedures regarding case planning.
- Following the consultation with the assigned social worker, discuss with the trainee their role in the meeting. Be clear about the role of the observer. The observer does not participate in the meeting, ask questions, or provide input about the case plan goals or objectives. As an observer, the trainee will complete the observation worksheet, which will be reviewed with the field advisor following the meeting.

**Social Worker Responsibility:**

- In partnership with the field advisor identify a case for which a team meeting to discuss an initial case plan is needed or scheduled.
Once the family has given permission for trainee to observe the meeting, participate in a brief meeting with the field advisor and assigned social worker to become more familiar with the case to be observed. The field advisor will facilitate the discussion. The field advisor may ask questions about:

- Purpose of the team meeting
- What role will the social worker be playing in the meeting (facilitator or participant)?
- Discuss with the social worker who the family has identified as their circle of support and/or safety network. Who is anticipated to participate in the team meeting?
- Discuss with the social worker how the family’s culture and trauma history may have an impact on the meeting. How has the social worker explored this with the family?
- How have participants been prepared for the meeting? Encourage the assigned social worker to describe their process for preparing families for team meeting.
- Discuss documents, materials, or other information that may be helpful for the trainee to review prior to the meeting to help better understand the family’s history and current circumstances. This should include any safety and risk assessment tools and county policies and procedures regarding case plans.

Ask any additional questions about the case or family circumstances to help better understand the purpose of the meeting and what will be discussed.

Review documents, materials, or other information recommended by the assigned social worker in preparation for the meeting.

**During the practice opportunity**

**Field Advisor Responsibility:**
- The Field Advisor has no “During the Activity” responsibilities.

**Social Worker Responsibility:**
- Observe the team meeting and complete the observation worksheet.
- Reminder: The observer does not participate in the meeting, ask questions, or provide input about the case plan goals or objectives. *You are just a fly on the wall! You can be seen but not heard 🙃.*

**After the practice opportunity**

**Field Advisor Responsibility:**
- Debrief with the trainee regarding the meeting process.
- What are some of the things the trainee noted on the observation worksheet?
☐ Ask the social worker what is one thing that he/she would like to try the next time he/she facilitates or participates in a team meeting related to case planning?

☐ Complete the Field Advisor Case Planning and Service Delivery survey:
